

بسم الله الرحمن الرحيم

20 May 2013

Dear Sir/Madam:

Assalamualaikum warahmatullahi wabarakatuh.

1. Asking donation for the purchase a piece of land for wakaf for the establishment of an Islamic university in science and technology in Yala, Thailand
2. Asking donation for the construction of an Islamic university in science and technology in Yala, Thailand

I am glad to inform you that we have recently formed and registered a foundation, called the Islamic Foundation of Science and Technology ("**Foundation**") for the purpose of establishing an Islamic university in science and technology in the district of Yala, Southern Thailand to be tentatively named as *Asean Islamic University of Science and Technology* ("**University**"). The Muslim population of Southern Thailand are desperately in need of an Islamic university for their children to pursue higher education after completing their secondary religious schools.

Currently the Foundation is seeking donations from the public to finance the purchase of a piece of land which is located adjacent to the existing religious primary and secondary schools in Yala, Thailand. These schools are collectively known as *Sekolah Haji Haron* (translated as *Haji Haron School*), named after the founder of these religious schools. The University is proposed to be built on this land and the students of the existing religious schools could be the important feeder schools to the University.

On behalf of the Foundation, I would like to ask for your generosity to donate funds for this educational project for the betterment of tertiary Islamic education opportunities in Southern Thailand. Your donations could be either for the purchase of the land for wakaf or for the construction of the University or for both. For the purchase of the land for wakaf, we have conveniently divided the land into units of one-meter squared lots to enable donors to purchase the lots of land for wakaf. The price of the land is set at RM200 or SAR250 per meter squared lot.

Donations may be made in the form of cash, cheque or bank transfer. The cheque shall be made payable to the *Islamic Foundation of Science and Technology*. The bank transfer may be made to the following account:

Name of Bank and Branch: **Bangkok Bank, Yala Branch**
Account Name: **Islamic Foundation of Science and Technology**
Account Number: **266-4-29715-3**; Swift Code: **BKKBTHBK**

Attached below is a brief overview of the Foundation and the University and the donation form. May Allah SWT provide you with great rewards for your generous donations.

Best regards,

Dr. Hasan Abdul Kadir @ Massae Rinissae
Chairman and CEO
Islamic Foundation of Science and Technology

The Foundation and University

1. The Foundation

The Islamic Foundation of Science and Technology was formally formed and registered in the Kingdom of Thailand on 28 February 2012 with registration number 1/2555. Its official address is No. 766 Siroros Road, Sateng Sub-District, Muang Yala, Yala Province, Thailand. The Chairman and CEO of the Foundation is Dr. Hasan Abdul Kadir @ Massae Rinissae.

The objectives of the Foundation are as follows:

1. To promote and support the management of education and research in science and technology;
2. To enhance literacy on science and technology among the Muslim population;
3. To cooperate with public and private institutions for a sustainable development of education;
4. To promote and integrate Islamic teachings in academic and vocational development;
5. To function as a dakwah center for the development of Muslim population in Thailand and Southeast Asian countries; and
6. To cooperate with relevant organizations in promoting the interests and welfare of the local community.

2. The University

The main objective of the Foundation is to establish an Islamic university that specializes in science and technology, tentatively named as *Asian Islamic University of Science and Technology*. The University will provide the much needed avenue for the existing students of religious schools in the area to continue their education at the tertiary level in an Islamic university. The University will be the first in the area that provides integrated programs in Islamic studies and science and technology courses.

It is envisaged that for the initial phase, the University will be organized into the following four faculties:

1. Faculty of Science and Technology
2. Faculty of Management Sciences
3. Faculty of Agriculture
4. Faculty of Islamic Sciences

3. Fund Raising

The Foundation is currently actively seeking donations to raise funds for the purpose of purchasing a piece of land for the construction of the University and also to finance the construction of the University.
